EDUCATION

Master's degree — Moscow Institute of Physics and Technology (MIPT) 2025–2027
Phystech School of Applied Mathematics and Informatics
Degree programme: 09.04.01 Informatics and Computer Engineering
Department: Fundamental Methods of Artificial Intelligence
Average grade: 8.47 / 10
Thesis supervisor: Dmitry Yudin, Ph.D. in Engineering
Thesis topic: Development of a monolithic vision-language model for image-based 3D scene graph generation

Bachelor's degree — MIPT 2021–2025
Phystech School of Biological and Medical Physics
Degree programme: 19.03.01 Biotechnology
Department: Bioinformatics and Systems Biology
Average grade: 7.77 / 10
Thesis supervisor: Olga Kudryashova, Ph.D. in Biology
Thesis topic: Analysis of wide-field optical neuroimaging methods using machine learning and computer vision

Presidential Physics and Mathematics Lyceum No. 239 2017–2021

WORK EXPERIENCE

Intelligent Transport Laboratory, Center for Cognitive Modeling, MIPT August 2025 — Present
Position: Intern
Sientific supervisor: Dmitry Yudin

Federal Center of Brain Research and Neurotechnologies (FCBRN), FMBA of Russia September 2024 — July 2025
Position: External research staff member
Scientific supervisor: Olga Kudryashova

National Medical Research Center for Children's Health September 2024 — July 2025
Position: External research staff member

RESEARCH PROJECTS

Huawei July 2026 - Present
Improving video-based visual-spatial question-answering using 3D scene graphs.

Sber.Robotics June 2026 — August 2026
Development of a methodology for automatically creating training data for vision-language models that generate humanoid robot actions

Sber.Robotics August 2025 — December 2025
Development of intelligent methods for constructing and updating knowledge maps and their application to mobile manipulator localisation

RESEARCH PUBLICATIONS

1. **Makarov V.**, Gizetdinov M., Yudin D. SceneGraphVLM: Dynamic Scene Graph Generation from Video with Vision-Language Models. *arXiv:2605.13667*, 2026. arXiv
2. Pinkin E., Kartashov G., Kalmykov M., **Makarov V.**, Melekhin A., Yudin D. GraphSeqLoc: Image Sequence-Based Place Recognition via Scene Graphs and Temporal Re-Ranking. *SSRN 7422535*, 2026. SSRN

CONFERENCES

67th All-Russian Scientific Conference of MIPT April 2025
Track: Biological and Medical Physics
Session: Bioinformatics and Systems Biology
Presentation title: Bioinformatic analysis of wide-field optical neuroimaging data to investigate neurovascular changes in ischaemic stroke
Result: Winner

All-Russian Conference "Neurocampus 2025" April 2025
Interdisciplinary approaches to the study and treatment of nervous system diseases
Format: Poster presentation
Presentation title: Analysis of neurovascular changes in ischaemic stroke using wide-field optical neuroimaging data

PROFESSIONAL DEVELOPMENT

Advanced Machine Learning Methods February 2023 — December 2024
MIPT Digital Department — Diploma of Professional Retraining

TEACHING

Teaching Assistant — Phystech@DataScience, MIPT September 2024 — June 2025
MIPT · Statistics and Machine Learning for Applied Problems
Led tutorials in statistics and machine learning

HACKATHONS

SIBUR — "Element 119" AI in Chemistry Competition April 2025
Task: Prediction of the lipophilicity of organic molecules
Researcher · ML Engineer · Participating team · GitHub

BostonGene December 2024
Task: Analysis of immune repertoires in response to a pathogen by matching T-cell receptor CDR3 regions to known sequences in a database
Researcher · ML Engineer · **Winning team** · GitHub

MIPT Digital Department — Gazprom Neft November 2023 — December 2023
Task: Development of a web service for the automatic grouping of procurement requests for materials and equipment into lots
Team Captain · ML Engineer · Participating team

CASE COMPETITIONS

Phystech Business Solutions — Yakov and Partners November 2023 — December 2023
Task: Tripling the number of unique patients attending annual check-ups across the company's clinic network within five years
High-tech business · Researcher · Data Analyst · Participating team · Project materials

Phystech Business Solutions — Kept November 2022 — December 2022
Task: Development and justification of initiatives to optimise the business functions of an oil-refining holding company without changing production processes, with the aim of improving company performance
Researcher · Data Analyst · **Finalists, internship invitation** · Project materials

Phystech Business Solutions — Zerion April 2022 — May 2022
Task: Development of Web 3.0 solutions for secure P2P services that enhance trust, transparency and accessibility in economic interactions
Researcher · Data Analyst · **Finalists, internship invitation** · GitHub

INTERNSHIPS

Laboratory of Molecular Medical Diagnostics, MIPT July 2022 — August 2022

Intern · Developed professional skills in mass spectrometry

Infochemistry Scientific Center, ITMO University November 2019

Intern · Developed professional skills in infochemistry and materials science

KEY SKILLS

Languages and Frameworks	Python, PyTorch, Lightning, NumPy, Pandas, SciPy, scikit-learn, OpenCV, scikit-image, Seaborn, Matplotlib
Tools	Linux, Bash, Git, Docker, Jupyter, Isaac Sim, Rerun, CVAT, Codex, Cursor
Specialisation	Deep Learning, Computer Vision, Vision-Language Models (VLM), 3D Scene Graphs
Language Proficiency	Russian — Native · English — B1
